<b>2b.</b>	<b>Process Steps</b>	On two separate occasions, each member of the choir will individually perform a 16 measure teacher-chosen unaccompanied excerpt from the concert music (repertoire). These will be recorded by having students sing either into a microphone or within the visual and audio range of a video camera. Music selected for the second assessment will be of an equivalent difficulty level, level III or higher, as determined by professional music organizations.
<b>2c.</b>	<b>Requirements</b>	The student will perform a cappella. Students receive instructions and a scoring rubric as a part of the class syllabus, and will be informed of the specific 16 measures to be performed several weeks in advance.

## 9. Administration (Teacher)

<b>1a.</b>	<b>Administration Frequency</b>	Students will be assessed at the end of the first quarter and again at the end of the third quarter.		
<b>1b.</b>	<b>Unique Task Adaptations/ Accommodations</b>	IEP: Adaptations may include a variety of musical, social or emotional supports toward completing the performance assessment. Gifted IEP: Students can be challenged to perform tasks in a small ensemble setting.

## 10. Process (Student)

<b>2a.</b>	<b>Task Scenarios</b>	Students will be asked to perform at sight an unfamiliar piece of music of at least 4 measures in duration that is appropriate to their voice range, and is at a level consistent to the musical selections within their reading skill range. Each student will be allowed to examine the excerpt for thirty seconds before they are asked to perform. Students may use a neutral syllable or solfeggio to sing the passage. Students will be given a starting pitch just prior to their performance. Student will be recorded using an audio/ video device. Students will be scored on their pitch and rhythmic accuracy and if used, the use of solfeggio language. A student identification number should be announced on the tape before each individual student performs.		
<b>2b.</b>	<b>Process Steps</b>	<ol style="list-style-type: none"> <li>1. Student will enter the space in which the assessment will take place, and be given 30 seconds or so to become oriented to the task and to study the piece to be sight-read.</li> <li>2. The student will be given a note to begin on, or be asked to choose a starting note they prefer.</li> <li>3. When the student indicates they are ready, the recording operator will start the recording device and indicate that they should begin.</li> <li>4. Student will perform the assigned piece once, while sitting or standing within the critical distance of a microphone attached to the recording device.</li> </ol>		
<b>2c.</b>	<b>Requirements</b>	The students will have had extensive sequential instruction and practice reading notation in the ensemble, through the use of reading exercises and musical selections within their reading skill range. Preceding the introduction of sight-reading, it is presumed that discussions and practice of notation skills would have been extensive. This would include both rhythmic, melodic dictation and solfeggio.
